

Highlights from the north

Highlights from the North is a beautiful, well-crafted collection that shows our Nordic cultural heritage at its best. The designs are interwoven with stories from the past and glimpses of our culture.

Kiruna reflects the great, silent expanses of the far north.

Jokkmokk reminds us of the wooden barns that were left unpainted and developed a rich patina with the passage of time.

Sala tells the story of the silverwork of a forgotten age.

Rättvik is inspired by the traditional kurbits painting of Dalarna.

Jukkasjärvi and *Abisko* reflect the designs of the traditional dress of the Sami people.

Experience a modern interpretation of our Nordic cultural heritage.

Facts

Highlights from the North includes 36 patterned and 11 monochrome wallpapers.

Highlights from the North is produced in Sweden and printed on WallSmart (non-woven). Highlights from the North is available in stores from January 2012.
